

Initial Project Planning Template

Date	08/07/2026
Team ID	
Project Name	A comprehensive Measure of well being
Maximum Marks	5 Marks

Product Backlog, Sprint Schedule, and Estimation (4 Marks)

Backlog for the HDI Predictor web app, organized into 4 two-week sprints covering authentication, the core ML-based prediction feature, interactive what-if simulation, the improvement-recommendation engine, comparison/reporting, external data integration, and admin analytics.

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members	Sprint Start Date	Sprint End Date (Planned)
Sprint-1	Registration & Authentication	USN-1	As a user, I can register for the application by entering my email and password, and confirming my password.	2	High		15 Mar 2026	28 Mar 2026
Sprint-1		USN-2	As a user, I will receive a confirmation email once I have registered for the application.	1	Medium		15 Mar 2026	28 Mar 2026
Sprint-1		USN-3	As a user, I can log into the application by entering email & password.	1	High		15 Mar 2026	28 Mar 2026
Sprint-1	HDI Prediction (Core Feature)	USN-4	As a user, I can enter Life Expectancy, Education, and GNI per capita values to get an instant HDI tier prediction.	5	High		15 Mar 2026	28 Mar 2026
Sprint-1		USN-5	As a user, I can see the predicted HDI score along with the tier (Very High/High/Medium/Low).	3	High		15 Mar 2026	28 Mar 2026
Sprint-2	HDI Prediction (Core Feature)	USN-6	As a user, I want input validation so I'm alerted if I enter unrealistic or missing values.	2	Medium		29 Mar 2026	11 Apr 2026
Sprint-2	Interactive What-If Simulation	USN-7	As a user, I can adjust indicator values using sliders and see the predicted tier update live.	5	High		29 Mar 2026	11 Apr 2026
Sprint-2		USN-8	As a user, I can see a color-coded gauge showing my current predicted tier visually.	3	Medium		29 Mar 2026	11 Apr 2026
Sprint-2	Registration & Authentication	USN-9	As a user, I can log in using Google OAuth2 for faster access.	2	Low		29 Mar 2026	11 Apr 2026

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members	Sprint Start Date	Sprint End Date (Planned)
Sprint-3	Recommendation Engine	USN-10	As a user, I want the system to identify my weakest indicator and recommend a target value needed to reach the next tier.	5	High		12 Apr 2026	25 Apr 2026
Sprint-3		USN-11	As a user, I want to see how much improvement is needed in each indicator to move up a tier.	3	Medium		12 Apr 2026	25 Apr 2026
Sprint-3	Comparison & Reporting	USN-12	As a user, I can compare two or more countries/scenarios side by side.	3	Medium		12 Apr 2026	25 Apr 2026
Sprint-3		USN-13	As a registered user, I can save my prediction history for later reference.	2	Low		12 Apr 2026	25 Apr 2026
Sprint-4	Comparison & Reporting	USN-14	As a user, I can download a PDF/CSV report of my prediction results.	3	Medium		26 Apr 2026	09 May 2026
Sprint-4	External Data Integration	USN-15	As a researcher, I can view reference/historical HDI data pulled from the UNDP Open Data API for comparison.	3	Low		26 Apr 2026	09 May 2026
Sprint-4	Admin & Analytics	USN-16	As an admin, I can view usage analytics such as number of predictions made and the most common tier predicted.	2	Low		26 Apr 2026	09 May 2026
Sprint-4		USN-17	As an admin, I can update/retrain the underlying ML model without requiring frontend changes.	3	Low		26 Apr 2026	09 May 2026
