

Team Involvement in Demonstration

Date	12 July 2026
Team ID	
Project Name	A comprehensive Measure of well being
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the HDI Predictor project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	Member 1	Presenter / Team Lead	Introduction & Problem Statement	Introduced the challenge of measuring human development consistently across countries and framed the need for a data-driven HDI classification model	Active
2	Member 2	Presenter	Solution Overview	Explained the HDI model architecture and how life expectancy, mean/expected years of schooling, and GNI per capita drive the classification engine	Active
3	Member 3	Presenter / Demo Operator	Live Demo – Predicting Very High Human Development	Ran Scenario 1, entering high life expectancy, strong schooling indicators, and high GNI per capita, and walked through the resulting Very High HDI prediction	Active
4	Member 4	Presenter / Demo Operator	Live Demo – Identifying Development Gaps in Emerging Economies	Ran Scenario 2, entering mid-range indicators for a developing nation and demonstrating the Medium HDI output along with improvement insights	Active
5	Member 5	Presenter / Demo Operator	Live Demo – Assessing Countries Requiring Development Intervention	Ran Scenario 3, entering low life expectancy, limited schooling, and low GNI values, showcasing the Low HDI prediction and highlighted developmental challenges	Active

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
6	All Members	Q&A Panel	Q&A Session	Jointly responded to audience questions and clarified assumptions, data sources, and future scope	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Member 1
Overall Team Coordination Rating (1-5)	4
Any issues during demo	A brief delay occurred while loading the pre-trained model for Scenario 2, causing a short pause between the Very High and Medium HDI demonstrations
How issues were resolved	The team used a cached set of pre-computed predictions as a backup to continue the demonstration smoothly while the model reloaded
